

Anti- vegetation mat

Purpose:

- rolled out under energy-consuming barriers along roads, motorways, railway lines
- applied on U21 posts
- protection of posts and pillars in car parks
- Protection against unwanted plant growth
- elimination of costly mowing

Place of production:

Poland

Material:

SBR rubber granulate

PUR resin

Dimensions, types:

- mat Ø 300 mm
- mat 330 x 400 mm
- roll (special offer)
- sheets 1000 x 1200 mm
- thickness 8, 10, 12 mm

Colour:

black

Technical parameters:

Parameters	Value	Unit	Standard / Method
Tensile strength	≥ 0,5	MPa	PN-ISO 37
Density	≥ 0,85	g/cm ³	PN-ISO 2781
Tolerance - length, width, height	± 2	%	of nominal

Packing:

Packed on a Euro pallet in quantities depending on the order.

Description on the pallet with the name of the product, its quantity, batch number and packing date.

Other packaging is possible on request

Identification:

Pallet- product name, quantity, pallet identification number, packing date, quality control stamp.

Storage:

The products should be stored on pallets in protective film and protected from external weather conditions.

The products may be stored for a longer period of time only in closed, ventilated rooms without humidity, after removing the protective film. Storage temperature: max 40 oC

Health, safety and fire conditions:

Conditions for storage and use of the product- must meet all requirements for storage and use of rubber materials.
